Join us for the art event of the year!

The programme is created for children.

We are going to visit the exhibition dedicated to one of the most versatile graphic artists, known for his so-called impossible constructions.

The children will observe and analyse numerous works, including the drawings Escher created during his 12 year stay in Rome.

They will discuss perspective, the use of positive and negative space, symmetrical drawing and much more.

During the visit they will be engaged in simple art activities.

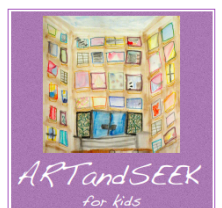

The programme will be held in English with help to those learning the language.

The programme is open to members of *ARTandSEEK*.

Annual membership costs 10€ per child and will be valid through 2024
