We are going to visit the exhibition about the great Japanese artist Katsushika Hokusai, who has influenced artists like Monet and van Gogh.

Following the theme of Nature, the children will observe and discuss Japanese culture and society, reflecting on the relationship between humans and nature that is evident in Hokusai's work. They will have the chance to observe and touch authentic Japanese brushes and paper. During the visit they will be engaged in discussions and will create art inspired by what they are observing.

The programme will be held in English.

Parents are invited to leave their children with the teacher and visit the exhibition independently if they wish.

The programme is open to members of **ARTandSEEK**.
Annual membership 2026 is included in the contribution.
New members are asked to submit a membership form.
