

# Online live courses for English Speaking and English Learners ages 6 to 8 and 9 to 13

ARTandSEEK method is "child centered"

We ask open ended questions and we encourage the children to express their ideas and emotions while engaging them in creative activities. At the end of each session we generally ask them to explain their work

We would like you parents to understand our approach and be able to ask questions, during our first free lesson, very similar to the ones we will have during the course.

- We will connect through **GOOGLE MEET** or **ZOOM** (12 kids max)
- The children need an adult at the start of the lesson to set up the connection
- Parents will make sure the children have all the materials needed at hand.
- Then the adult can leave the child with the teacher, since the lesson does not require the child to interact if not to talk to the teacher
- We will email worksheets after each lesson
