

# Online live courses for English Speaking and English Learners ages 6 to 13

ARTandSEEK method is "child centered"

During the 1hr lesson the children are exposed to many different art works that we analyse together.

We ask open ended questions and we encourage the children to express their ideas and emotions while engaging them in creative activities.

At the end of each session we generally ask them to explain their work

- We will connect through **GOOGLE MEET** or **ZOOM** (9 kids max)
- Young children need an adult at the start of the lesson to set up the connection
- Parents will make sure the children have all the materials needed at hand.
- The adult can leave the child with the teacher, since the lesson does not require the child to interact if not to talk to the teacher
- We will email worksheets after each lesson
