Let's go out and have a nice walk in one of the richest archeological sites in Rome: Colle Oppio park is home to layers and layers of history !

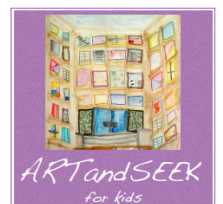

In this workshop the children will use a simplified map, provided by ARTandSEEK, as the basis for their project which is divided into two phases. Firstly the children will enjoy taking a close look at interesting archeological buildings, allocating them on their map and connecting geometric shapes visible at each of the 8 spots.

They will then be turning their map into a work of art inspired by the style of the Roman artist Paola Gandolfi.

The workshop will last 90min.

The programme is taught in English with help to those who are learning the language.

The programme is open to members of **ARTandSEEK**.  
Annual membership costs 10€ per child and will be valid through 2024
