A gorgeous spring day is the best occasion to go out and have a nice walk in one of the richest archeological sites in Rome.

Colle Oppio park is home to layers and layers of history !

In this workshop the children will use a simplified map (provided by ARTandSEEK) as the basis for their project which is divided into two phases.

Firstly the children will enjoy taking a close look at interesting archeological buildings, allocating them on their map and connecting geometric shapes visible at each of the 8 spots.

During the second phase the children will be turning their map into a work of art inspired by the style of the Roman artist Paola Gandolfi.

The workshop will last 90min.

The programme is taught entirely in English.

The programme is open to members of **ARTandSEEK**.
Annual membership for 2021 costs 10€ per child.
